

I was on a hospital project where we were adding an emergency back-up generator. One of the electricians was a young journeyman. As I got to know him I became more curious of what his 2 words would be.

“History.” he said.

“That’s only one word.” I answered.

I told him I still needed a second word from him. From time to time I’d ask him if he came up with it. He’d just shake his no.

So one day I replied “Just History?”

I added that the Bible was more than that.

But he stuck with the one word.

Many months would go by and I'd end up moving across the country and working for another construction company. One day it'd hit me.

It's not "just history?" it's "History!"

His story.

Jesus Christ.

Through His death on the cross Jesus made history, His Story. He doesn't just have a day of the week named after Him. The whole calendar turns on Him. GOD made the point of the Bible in Person.

For those of us who believe His story we get to EXPERIENCE GOD in our everyday lives!

*“I have been crucified with Christ and I no longer live, but Christ lives in me. The life I now live in the body, I live by faith in the Son of God, who loved me and gave himself for me.”*

Galatians 2:20 NIV
